Outsourced Energy is pleased to offer a powerful and advanced electric hot water package (HWPE) which is now available to hire. This unit is compact in design, flexible and durable and supports planned and emergency requirements on a long and short term rental basis.

The unit offers a quick user friendly replacement for broken down boilers for schools, hotels, care homes and offices or for temporary applications like event catering or accommodation.

The unit connects directly to a sites pre-existing heating system minimising the set up time and restoring heat easily with minimum disruption. Furthermore the unit is supplied on a lightweight trolley to aid mobility and enable units to be easily and discretely positioned.

Depending on the plug and power supply used the unit is capable of operating with a heat output of 3kW, 11kW or 9kW and where required can operate in parallel to provide greater duties.
